This fund aims (1) to achieve the highest possible return by making investments in line with the investment strategy pursued by KBC Asset Management NV and (2) to protect an annual floor price. The assets of this fund may be used for the purposes of securities lending in order to earn an additional return for the fund. While securities lending increases the level of risk within the fund it also provides an opportunity to increase the investment return.

Performance figures are based on past investment returns. The calculation of past performance includes all charges and fees, except taxes and entry and exit charges. Past performance figures may be misleading and are not a reliable indicator for future returns.

RISK AND RETURN INDICATOR

The legally required risk and return indicator is determined on the basis of the fund's volatility or sensitivity to the markets. The figure is calculated from a EUR investor perspective.

TAX

Investors should note that the tax legislation which applies to the Fund may have an impact on the personal tax position of your investment in the Fund.

PRODUCT SCORE

Along with the volatility of the market, this product rating, developed by KBC, also takes other factors into account such as scheduled repayment of capital, creditworthiness, asset allocation, exposure to foreign currencies and liquidity.

A product rating of 1 corresponds with a very defensive risk profile, a product rating of 2-3 with a defensive profile, a product rating of 4-5 with a dynamic profile and a product rating of 6-7 with a very dynamic profile. More information and background on the various factors used to determine the product ratings can be found at www.kbc.be/productrating.

RISK PROFILE

This product may be suitable for you, depending on your knowledge and experience of financial matters, your financial capacity and your investment goals. You should preferably have at least a dynamic risk profile. Ask your KBC Investment Specialist for more advice.

Warning: If you invest in this product you may lose some or all of the money invested.

Warning: Past performance is not a reliable guide to future performance.
