In the case of Fixed Rate Term Accounts interest is paid at the end of the term or as specified by the account Terms & Conditions. Unless the Bank receives instruction(s) from you on or before the maturity date, the full balance in the account will be reinvested in a similar fixed term product at the prevailing interest rate for that product on that date. If on the maturity date there is no similar fixed term product available, the full balance in the account will be reinvested in our Standard Demand Deposit Account earning the then prevailing Standard Demand Deposit Account interest rate.
